CARBORUNDUM ABRASIVE+KNIFE ELEMENT (Combi)

The abrasive carborundum element combined with knife element gives effective peeling without leaving any particles from the peeling elements in the final product.

KNIFE

Knife element on one roll gives a powerful peeling of a pre-peeled product. The first element can be equipped with rough cuttings and the second part with a finer cutting knife to achieve the best peeling results.

ABRASIVE ELEMENT

Full carborundum abrasive roll element for pre-peeling of all types of products.
